Napa Grandeur

WHEN THE OWNERS DECIDED to build their magnificent vineyard home in the hills of St. Helena, they looked to Catherine Shackford of Northbay Kitchen and Bath and owner David Frym to create a warm, distinctive kitchen. The design was to exude an old-world feel, while satisfying their love for entertaining in an environment chock-full of modern conveniences. The designer worked side-by-side with the owners, paying close attention to every detail.

Handcrafted carvings, rounded cabinetry corners and the custom wood paneling over the appliances showcase the impeccable taste that is evident throughout the home. Having a spacious area to work with, the designer created a large island, balancing the grandeur of the hand-carved mantel and corbels over the commercial-style gas cooktop. Alongside the cooktop, custom built-in pullouts for spices and oils make cooking convenient.

A full walk-in pantry and a separate phone desk are tucked away just a few steps from this exquisite kitchen. Byzantine Gold Travertine tiles were used for the backsplash, Country Classic Travertine for the floor. Faux finish wall coverings picked up the coloring of wall textures used in this stunning kitchen. «
